

Patient Rights & Responsibilities

Patient Rights

- Right to receive care with dignity, respect, and without discrimination.
- Right to receive clear information about diagnosis, treatment options, and expected costs.
- Right to give or refuse informed consent for any procedure or treatment.
- Right to privacy and confidentiality of personal health information.
- Right to request a second opinion or to be referred to another facility.

Patient Responsibilities

- Provide accurate and complete information about health history and current condition.
- Follow the agreed treatment plan or discuss concerns with the care team before deviating from it.
- Treat hospital staff and other patients with courtesy and respect.
- Meet financial obligations for the services received, as outlined by the billing office.

Complaints & Feedback

- Patients or families may submit complaints or feedback through the Patient Relations Office, in person, by phone, or via the hospital website.
- All complaints are acknowledged within 48 hours and investigated by the relevant department.
